GROUNDING/BONDING CABLE

NEW - We now offer super duty cable in 1/8" clear and 3/16" high visibility cable that lasts 3 times longer than regular cable.

STANDARD CABLE

High quality 7 x 7 galvanized steel cable 3/32" diameter coated to either 1/8" or 3/16" diameter. Available in Clear or yellow. Shipped on strong, easy to handle steel or wood spools. The tough vinyl coating also allows great flexibility. Highly conductive.

	Clear 1/8"	Clear 1/8" Super Duty	3/16"	5/32" PVC Yellow
Cut Lengths by Foot	GTP-1093-1	GTP-1093-SD-1	GTP-1299-1	
1,000' reel	GTP-1093	GTP-1093-SD	GTP-1299	GTP-8557-1
10 - 1,000' reels	GTP-1093-10	GTP-1093-SD-10	GTP-1299-10	

SAFETY - ORANGE HIGH VISIBILITY CABLE

In addition to our standard Clear cable, we now offer this high visibility Safety-Orange cable. This special coating is formulated with a high-tech NEON dye which remains visible even in low light. The tough vinyl coating gives long life. This cable is made with our standard 7 x 7 galvanized steel wire construction, 3/32" coated to 1/8" (or 3/16"). Due to our high volume we can offer this cable at a price only slightly higher than our standard clear cable.

	1/8"	3/16"	3/16" Super Duty
Cut Lengths by Foot	GTP-1093HVO-1	GTP-1299HVO-1	GTP-1299HVO-SD-1
1,000' reel	GTP-1093HVO	GTP-1299HVO	GTP-1299HVO-SD
10 - 1,000' reels	GTP-1093HVO-10	GTP-1299HVO-10	GTP-1299HVO-SD-10

KINK RESISTANT BRIGHT YELLOW CABLE

You can reduce your problems with kinks and tangles by using this special cable. Resistance to kinking is accomplished by making the cable of specially wound stainless steel instead of galvanized steel. We offer two versions. First, our premium GTP-2869 cable with it's oversized 5/32" specially compounded Dupont Hytrel® polyester coating is even tougher than our standard vinyl and the coating adds to the kink resistance of the cable. Resistance to wear and cutting is amazing. For a less expensive cable, we offer cable with a 1/8" yellow vinyl coating. This lower priced cable has the same kink resistant s/s cable inside.

NOTE: Stainless cable has a resistance of 9.5 ohms pre 100 foot (within Mil standards). Flashlight type testers cannot be used to test stainless cable. A voltmeter should be used when testing this cable.

	Hytrel® 5/32"	Vinyl 1/8"
Cut Lengths by Foot	GTP-2869	GTP-2869V
1,000' reel	GTP-2869-1	GTP-2869V-1
10 - 1,000' reels	GTP-2869-10	GTP-2869V-10

NOTE: We do NOT offer nylon coatings because we have found that vinyl lasts longer. The low temperature range for the Hytrel® is -40°F, for the other cable it is -20°F

Hytrel® is a licensed trademark of the Dupont Corporation.
